fact that, if a breakdown occurs in the breaking unit,
discharge cannot be stopped, because the current in
the circuit is determined by its inductance.

DESCRIPTORS: ⁴Paleontology, ⁴Taxonomy,
Cephalopoda, Biology, Geology.

Belemnite rostra bear longitudinal furrows of various
kinds, ranging considerably in strength. The present
systematic classification of belemnites is based on
characters other than the generally indistinct marginal
or lateral furrows which, nevertheless, are important
because they probably are attachment scars for the fins.
